PROJECTS

Job Finding Application

MERN Stack

- Developed a web application connecting labourers with employers for easier job discovery and hiring.
- Implemented job listings, labour registration, job search, and filtering features.
- Designed responsive and user-friendly interfaces using React.js.
- Structured application modules for users, employers, job postings, and job applications.

Personal Portfolio Website

React.js

- Developed a responsive personal portfolio website using React.js, JavaScript, HTML, and CSS.
- Created reusable components for About, Skills, Projects, Experience, Education, and Contact sections.
- Implemented responsive navigation and light/dark mode functionality.

Amazon Webpage UI

HTML, CSS, JavaScript

- Developed an Amazon-inspired e-commerce webpage UI with a responsive and user-friendly layout.
- Created product sections, navigation components, search interface, and structured product displays.
- Applied HTML, CSS, and JavaScript to create a clean and responsive shopping interface.

Computer Class Web Frontend

React.js

- Developed a responsive frontend website for a computer training class using React.js.
- Created reusable components for courses, services, navigation, and contact sections.
- Designed a simple and user-friendly interface with responsive layouts for different screen sizes.
